## Our Town 9/26/19

Originally published Sept. 19, 2002

DEAR SOUPSTER: My boyfriend wears a size 9 men's XtraTuf and I wear a men's 7, which is the same as a woman's 9. One day, I accidentally put on my boyfriend's boots instead of mine and they felt incredibly comfortable. Now I wear them whenever he is away on business. I'm really confused.

SIGNED: ADDLED ON EDGE CUMBE

DEAR EDGE CUMBE: Have you considered the possibility that your feet are still growing? You did not state your age, but your comfortable access to your boyfriend's boots indicates you've been together for a long time. It's okay to walk in another's XtraTufs, clogs, Romeos, moccasins or running shoes. Just make sure to wear clean socks.

---

DEAR SOUPSTER: What is a "suntan?"

SIGNED: DEEP WOODS JACK

DEAR JACK: Formally, a "tan" refers to the browning of the skin by exposure to the sun. In much of North America, the skin substance called melanin is not just an unused body feature, like an appendix. In some places, special lotion is spread on the body to protect it from the sun and avoid the dreaded "suntan" - an especially intense form of "suntan."

---

DEAR SOUPSTER: Is it more dangerous running with scissors in the rain?

SIGNED: DOING IT ANYWAY ON OSPREY STREET THOUGH MY MOTHER TOLD ME NOT TO

DEAR NOT TO: Yes, definitely.

*The Soupster endeavors to give accurate advice*

DEAR SOUPSTER: My girlfriend has taken to wearing my boots. I know because when I get home from a business trip, the boots are all stretched out in funny places. She has her own boots, but she won't wear them. Should I get her a new pair or give her these?

SIGNED: GENEROUS ON EDGE CUMBE

DEAR GENEROUS EDGE CUMBE: By all means, buy her a new pair of XtraTufs, if that's all it will take to solve your problem. But it may be that your girlfriend wants to wear only boots you have worn. How long are these business trips of yours? You must consider whether you want a big boot buy, or to change careers.

---

DEAR SOUPSTER: If it rains so much in Our Town, how come nobody uses umbrellas?

SIGNED: WET ON WACHUSETTS.

DEAR WET: We are using umbrellas. A little-known fact is that all outerwear worn in Our Town - coats, hats, gloves etc. - is in fact made from recycled umbrellas. If you see three Sitkans, you may be seeing cloth pieces patched together from two dozen umbrellas. They're just not holding the umbrellas ballooned out over their heads.

---

DEAR SOUPSTER: Last week a couple stopped in my store on their way to take a business trip together and bought 20 pairs of men's size 7, 8, 9 and 10 XtraTufs. They cleaned out my entire stock. They said they'd be back. I just wanted to call and say thanks.

SIGNED: BEMUSED ON LINCOLN STREET

DEAR BEMUSED: Glad to be of service.

**Alaska Day 2019** "Frontier First Responders" is the theme. A full draft schedule of events will be posted on [www.sitkasoup.com](http://www.sitkasoup.com), beginning September 26th. Per the AK Day Committee, "Alaska Day annually commemorates the Transfer of

Russian claim of Alaska to the U.S. at Sitka on Oct. 18, 1867 and celebrates the diversity of cultures and historical perspectives of our people. The Alaska Day Committee hopes to inspire a deeper exploration into the cultures and history of the 1867 era. We also aim to stimulate the imaginations of our current generation, and to look beyond our own histories to better appreciate

## PAUL RIOUX

**FOR  
SCHOOL BOARD**

**What I believe:** I believe that schools, like all government, should operate efficiently; I also believe that great schools are the cornerstone of great communities, states & nations - the seeds of times to come.

**Where I come from:** Sitka has been my home since 1995. I currently have a daughter & two sons in different schools in the district. My eldest son is an SHS grad who lives & works in Sitka. I have worked with youth through the Boy Scouts & 4-H. I've served on the boards of the Sitka Unitarian Universalist Fellowship & the Sitka Community Development Corp. Professionally, I've worked as a Marine Hydraulics Specialist at Precision Boatworks and prior to that as a commercial fisherman.

### What I will try to do:

- Be as informed as possible on district policies & state/federal rules & mandates
- Be tuned in to the wants & needs of the students, district staff & community at large
- Bring at least two of my own perspectives to the board: parent of children in Sitka schools & community member concerned for our whole future

### Municipal Administrator Candidate Interviews

Interview for Craig Cugini (the second of two final candidate interviews) will be held on September 27 - Community reception at Harrigan Centennial Hall 4-6pm, followed by interview at 6pm. The interview for Johns Leach was held on Sept. 12. 7265d813079741fa

**Ferry Ending Service to Prince Rupert** As of Oct. 1, 2019, the Alaska Marine Highway System is ending service to Prince Rupert, BC. AMHS is unable to

meet requirements for U.S. Customs in Prince Rupert. U.S. Customs and Border Protection (CBP) is requiring AMHS to secure a Canadian law enforcement presence to protect CBP's personnel in Prince Rupert while inspection tasks are performed. All avenues for local law enforcement were pursued, but AMHS was not able to secure the staff necessary to fulfill this requirement. The new requirement specifies a Canadian law enforcement presence

with the ability to make arrests in Canada, which is not a duty that AMHS staff are able to perform. Last spring, CBP began requiring a Canadian law enforcement presence in Prince Rupert. AMHS was granted a waiver through

Sept. 30. Over the summer, AMHS worked with the City of Prince Rupert and the RCMP to meet this requirement, but neither of these entities have staff available to perform the duties necessary to comply with the new requirement.

# SITKA SOUP KID'S PAGE presents OUR SOLAR SYSTEM

Planet sizes are to scale. Distances are not.

Our solar system consists of *our* star, the Sun and everything bound to it by gravity — the planets Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus and Neptune; dwarf planets such as Pluto; dozens of moons and millions of asteroids, comets & meteoroids. Beyond our own solar system, we have discovered thousands of planetary systems orbiting other stars in the Milky Way galaxy.

## Fast Facts!

There are 3 general kinds of galaxies: elliptical, spiral and irregular. Ours, the Milky Way, is a spiral galaxy.

NASA's Voyager 1 is the only spacecraft so far to leave our solar system!

More than 300 robotic spacecraft have explored destinations beyond Earth's orbit, including 24 "astronauts" who orbited the moon.

That's A Lot of Moons!

The planets of our solar system—and even some asteroids—hold more than 150 moons in their orbits.
