Did You Know

That Kastmaster lures (which are carried at LFS Marine) are used to catch trout salmon, rockfish and more. "Kastmaster's balance produces wild action without line twist! Because of its aerodynamic design, it's the master distance caster, and catches fish in fresh and salt water. The Kastmaster is precision machined. It will not break, bend or corrode and it retains its luster even after repeated exposure to salt water." - read more: acmetackle.com/collections/kastmasters
