

Types of Shelter

See the solutions
on page 18.

A shelter is a building or space giving temporary
protection from danger or bad weather.

First, find the 8 types of
shelter listed to the right
in the wordsearch below.

Next, draw a line to connect
each word below to the
matching image on the right.

What is a Ramada?

In the southwest a ramada is a *partially enclosed* shelter equipped with a roof, but no walls. The ramada pictured to the left is protecting an ancient ruin from the sunshine in Casa Grande Ruins National Monument. Ramadas are similar to the shelters found at the Halibut Point Rec Area.
